

Terramascia Suite

Terra Mascia is a tribute to the architecture of Salento, which for over two centuries has characterised the humble country houses, churches and large buildings of our land.

Its star-shaped vault tells the story of great master craftsmen who made a virtue of necessity, and whose legacy was an architectural technique of timeless charm.

A suite that celebrates the encounter between history and modernity, providing glimpses of one of the most atmospheric cities of Salento: Otranto.
